MISSION 06: CHAOS & THE FINAL JUMP

One decision. One timeline. The universe depends on it.

Six Weeks To Save Reality

DIGITS n DATA

⚠️ **ALERT: AGENT KARTHIKA**
Reality is breaking across timelines.
Only one jump remains.
Ant-Man is ready.
👉 This jump decides everything.

Objective

🕐 Identify the ParadoxScore linked to the earliest timestamp that occurred on a Saturday – choosing the timeline with the least paradox impact.

My Approach

1. Filter only Saturday timelines
2. Sort by earliest timestamp
3. Resolve time-collision by choosing the lowest ParadoxScore
4. Select the safest possible timeline

Not just the first jump – the smartest one

SQL Decryption Protocol

```sql
SELECT ParadoxScore
FROM Timeline_Paradox_Simulation
WHERE DayOfWeek = 'Saturday'
ORDER BY Timestamp ASC, ParadoxScore ASC
LIMIT 1;
```

🧬 Timeline Selected
🔒🔑 Result secured
🚫 ParadoxScore hidden

✅ **MISSION 06: COMPLETED**
🌌 **Timeline stabilized**
🦸 **Universe saved**
📊 **Data logic prevailed**

Six weeks. Six missions.

One reality saved.
